WHEAT DROPPED 2 CENTS A BUSH-EL ON CROP REPORT.

A Bearish Interpretation Has a Decided Effect on the Market-Corn and Onts Closed Higher-Provisions Lower.

CHICAGO, May 11.-Wheat dropped 2 cents a bushel to-day on selling caused by a bearish interpretation of the government crop report. Corn and oats each closed See higher. Pork lost 125c, lard and ribs

The government report, which suggested a yield of 210,000,000 bushels, gave wheat a | Sept. weak start. The sentiment, however, soon changed and the market became strong on reports from several states of the ap-pearance of chinchbugs. The buying was weak hearted and when advices were received from Buffalo the announcement of an early compromise of the labor troubles an early compromise of the labor troubles was premature everybody who had wheat began to unload. The market declined steadily to the close. July opened %61c lower at 197114c, advanced to 7c, declined to 7lc. Many stop-loss orders were reached at 7lc and their execution caused a diump to 69%64975c. The close was at 70c. Chicago received thirty-three cars, three of which graded contract. Minneapolis and Duluth got 169, compared with 519 for the same day a year ago. The aggregate at Western primary markets was 343,000 bushels, against 78,000 bushels last year. Cash demand was poor. 295 @ 305c.

The Cimcinnait Price Current was also bearish in its tune, claiming that the crop was doing well and making good progress. The result was free selling of long wheat, and in Chicago July deliveries went off during the day Ic and closed near the low point of the day. Here there was also a decline of 18cc on July and the market finished near the bottom. Under the influence of the break in the market in this country cables were also lower. There was a guereal turning over all around and the bears had a good inning. The rash market was lower in sympetty. But it showed no such decline as futures. Trade, however, was dull. Hard wheat rold \$6781cc cover text with a scratch sale now and then at 5c over. This is a less of left. But the latter part of the day a still greater decline was demanded. Holders, however, were slow to meet buyers' views and
